

OBEDIENCE TRAINING SEMINAR

Presented by Midnight Golden Retriever Club
At Alyeska Canine Trainers

By

CONNIE CLEVELAND Dog Trainer's Workshop

January 27 & 28, 2018
9:00 - 5:00

Connie returns to Alaska for a two-day Competition Obedience Training Seminar. Connie's experience and accomplishments can be found on her website at <https://www.dogtrainersworkshop.com/about-us/meet-connie>.

Connie presents an entertaining, informative seminar for auditors, as well as working participants. Whether you are just starting in Novice Obedience Trials, or proofing your game in Utility, Connie has a lot to offer you for an improved performance.

We have asked her to focus on the competition exercises found in Novice, Open and Utility. Working teams will identify a problem they are having with one of the exercises in one of these classes and will serve as a demo team for Connie while she teaches us all how to train the exercise and resolve the issue.

As the exercises in alternate, optional and rally classes are comprised of training steps for the regular classes of Novice, Open and Utility, the seminar will focus on the exercises in regular classes and still benefit those in Rally and optional titling classes.

Obedience exercises are the foundation for a well-behaved pet at home, as well as performance building blocks for agility, field work, most all dog sports, as well as pet partner and service dog work; and for forming an amazing partnership with your dog.

Don't pass up this this opportunity to learn how your dog learns and to learn how to train and develop a working bond with your canine partner.
